

Portable XRF Course Syllabus

Course Overview

This course is aimed at personnel who are supervising the use of Portable XRF (x-ray fluorescence) devices on behalf of their organisation.

It does not permit the repair or maintenance of equipment or allow personnel to perform alignment procedures where safety interlocks are to be defeated.

This course provides course participants with the skill and knowledge requirements for the radiation management of Portable XRF equipment including aspects such as: auditing and compliance; radiation exposure; and incident response.

Course Details

Location: West Leederville, WA
Duration: Half Day
Times: 08:00 to 12:00 (approx.)
Cost: \$450 +GST

Course Variations

We can tailor the presentation of this course to meet your companies' specific needs. If you would like us to deliver this course at your premises, or present on a specific date of your choosing, please contact us so we can customise to your specifications.
